

**PARTNER TOOLKIT**

Onboarding Timeline

From first contact to a live Port Card on MWApp — typically 3–4 weeks end to end.

**STEP 1****Get in touch**

Your centre reaches out via imwirsa.org/contact.html or email. IMWIRSA replies within 24 hours with an overview and a proposed call time.

**STEP 2****Introductory call**

A 30–45 minute online call to walk through the model, answer questions, and confirm mutual fit. No commitment required at this stage.

**STEP 3****Centre profile & coordinator nomination**

Your centre is added to the international registry. Your nominated MWApp Port Coordinator completes the structured port questionnaire (about 45–60 minutes for the required part) — this is what registers your port.

**STEP 4****Pilot goes live**

Once IMWIRSA reviews and confirms the questionnaire with your coordinator, your Port Card appears in MWApp. Seafarers arriving at your port can now find your centre, services and coordinator contact directly. From here, small updates go through a simple Telegram bot, checked by the IMWIRSA team before publishing.

3–4 weeks

Typical time from first contact to going live — no cost, no exclusivity, no restructuring required.
